

SLEEVE-IT

Product Data Sheet

Sleeve-It SD1 is the only patented fence-post anchoring system that integrates stable fence footings into the support structure of an SRW while it is being constructed. Sleeve-It is a pre-engineered below-grade system for enhancing the fence foundation stability in an SRW taller than 30". Uniquely designed for ease of installation, Sleeve-It also maximizes the useable real estate on top of the wall by eliminating the 36" offset requirement for rails and fences under IBC 1015.2.
